EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ansel Schwartz on January 4, 2005.

The application has been amended as follows:

The word "A" was changed to "An" and the word "isolated" was inserted before "DNA" in line 1 of claim 1.

2. The following is an examiner's statement of reasons for allowance:

The prior art fails to teach or suggest an isolated nucleic acid molecule consisting of SEQ ID NO: 1. The closest nucleic acid sequence found in the prior art had only a 17.7% percent homology to Applicant's SEQ ID NO:1. Fleischmann et al (Science 1995) teach the complete genome of *H.influenzae* strain RD. However, this strain does not contain genes for virulence factors, such as the one instantly claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Correspondence regarding this application should be directed to Group Art Unit 1645. Papers related to this application may be submitted to Group 1600 by facsimile transmission. Papers should be faxed to Group 1600 via the PTO Fax Center located in Remsen. The faxing of such papers must conform with the notice published in the
